Reduce the spread of germs

MEDICAL  
DIVIDERS

## The Vaccination Station

Create instant vaccination rooms using EverPanel, divide larger open spaces into mini-medical rooms with EverShield that can be used for private consultations and vaccinations. Keep patients separated for their COVID vaccination and maintain social distancing between patients and staff.

Our modular wall systems are fully scalable, flexible, install quickly and efficiently without any tools. Instantly create separation in offices, and direct the flow of traffic for safe social distancing.
